## Routine Notes.

[To be used only for notes, requisitions, etc., not intended for permanent record.]

D. 3994
1405

Br IV have sent a copy of this letter for being dealt with in Br I in so far as it relates to the Agl chemists' office

Letter no 114-1045-8 9.2.11 from the Secy to Govt P.W.D.

In connection with the Subject of the Electric installation in the Govt Bacteriologists' Laboratory & the supply of electric power free of charge, the Secy, P.W. Dept has stated in the above letter that it is not desirable to order the supply of power free of charge as the Electric Department is working on a commercial basis. By the way he also states that the Mycologist may be asked to pay for the current supplied to the Agl chemists' office & Laboratory which has originally been ordered to be supplied free of charge (Govt. no. R 3572-3-Ap. 07- dated 3 10-3-08)

From the Chief Electric Engineer's letter sent as an enclosure to the above letter it is evident that C.E.E. does not press for

## Routine Notes.

[To be used only for notes, requisitions, etc., not intended for permanent record.]

Hey M

The levy of charges in future for the power supplied to the Agl chemist's office, but suggests that the case should not be taken as a precedent & any further free supply of power sanctioned.

It was at the express recommendation of the C.E.E (Vide his letter no 2926-Mis dt 20-12-1904 to the Agl chemist) that the supply of electric current to the Agl chemist's office free of charge was sanctioned in the G.O. of 10th March 1905.

It is a point for orders whether this G.O. should now be cancelled & the officer in charge of the Agl chemist's office asked to pay for the current. There have been no changes in the conditions either of

It seems to
be unnecessary to
revise an arrangement
which has existed since
1905 and as it
is distinctly laid down
that free supply of
electric power cannot
be made to the
Chemical laboratory
as the electrical dept
is run on commercial
lines there is no
distinction to the
free supply made to
the All Chemists' Laboratory

Copy of letter no. 114/1045 dt 9th July'11 from the Secy to the Govt of Mysore P.W.D to the Offg Secretary to the Govt of Mysore, Genl & Rev: Depts:-

With reference to your letter no: 5761/Med 127-10-3 of the 7th ultimo requesting to arrange for the electric current being supplied for ~~the~~ lighting the Chemical Laboratory at Bangalore, I have the honour to inform you that it is reported by the Chief Electrical Engineer that Service has been given to the Laboratory from the 5th idem.

2. As regards the free Supply of the current to the Laboratory, I forward Copy of letter no: 170 of the 19th idem from the Chief Electrical Engineer objecting to the free Supply of current to any institution, as the Electrical Department is conducted on a Commercial basis and Concessions like these will detract from a correct presentation in the Accounts of the true financial position of the Cauvery Power Scheme. Govt may give money grants if they please but the grant of a free Supply will lead to irresponsible expenditure and great evils in the end.

The Mycologist may be requested to pay

for the current at the usual rates.

Enclosure.

Copy of letter no: 170 dated the 19th January 11 from the Chief Electrical Engineer to the Chief Engineer of Mysore:—

Installation of Lighting in Chemical Laboratory.

Adverting to your no: 37/264 dated 11th instant, I have the honour to state that Service has been given from the 5th instant.

2. As regards supplying power by this Department free of charge, we are of opinion that no free power should be given to any institution considering the fact that this Department is working on a Commercial basis. In case of Government Institutions, it is only a transfer of charge from one Department to the other under the same Govt and each Department should show its own earning and expenditure. If the Laboratory Contingent allotment is insufficient to meet these charges, as is stated by the Chemical Examiner, Sanction to additional allotment has to be obtained by him.

3. Sanction was conveyed in Govt Proceedings no: R 8572/April 07-04-6 dt 13th March 05 to supply energy free of charge to the ½ H. P. motor in the Agricultural Laboratory, considering that the income

was so small that it would hardly pay the cost of maintaining an account. We are of the opinion that this instance should not be taken as a precedent but that they should be called upon now to pay, by transfer, for this in the usual manner. Otherwise true measure of this Departments financial aspect will not show in our accounts.

Proceedings of the Government of His Highness the Maharaja of Mysore.

Read:-

Letter No. G. 305 dated the 16th Dec. 1910 from the Senior Surgeon forwarding with reference to Government Order No. 8404-7/ Med. 155-09-2 dated the 26th March 1910 a copy of letter No. 1328 dated the 7th December 1910 from the Chemical Examiner and Govt: Bacteriologist and recommending that the electric current to the Chemical Laboratory be for reasons stated supplied free of charge .

2. Letter No. 114/ 1045 dated the 9th February 1911 from the Chief Engineer of Mysore stating with reference to this office latter No. 5761/Med. 127-10-3 dated the 7th January 1911 that it is reported by the Chief Electric Engineer that the Laboratory has been supplied with electric current from the 5th January 1911 and forwarding a copy of letter No. 170 dated the 19th January 1911 from the Chief Electrical Engineer objecting to the supply of Electric power to any institution free of charge as the Electrical Department is working on a commercial basis.

- - - - - - - - - - - - - - - - - -

Order thereon No. 7480-3 Med 127-10-6

Dated Bangalore 15th March 1911.

The free supply of electric power to the Chemical Laboratory cannot be ordered . The Senior Surgeon is requested to arrange for payment to the Electrical Department of not only the initial but also the recurring charges on account of electric power supplied to the Laboratory by a redistribution of the contingent grant of the Laboratory, taking due account of the expenditure hitherto incurred for power and light now replaced by electricity.

K. Nijalingappa.
